Not All Monitoring Centers Are Created Equal

There are many reasons security dealers trust their valued customers to Armstrongs.

Passion for Innovation

Armstrongs, a Becklar Company, fosters an ongoing culture of innovation, investing millions of dollars each year in research and implementing new technologies that enhance the reliability, speed, and accuracy of our monitoring solutions.

Patented AI-Powered Engage Platform

Whether you are protecting people, property, or workers, the patented Becklar Engage Platform blends AI and Human interactions to ensure the fastest emergency response times in the industry and best possible outcomes in the moments that matter.

Exclusive Dealer Tools

Our dealer partners have complimentary access to Armstrongs, a Becklar Company's suite of exclusive dealer tools to improve business efficiencies and facilitate growth including Dealer Dashboard, Armstrongs Chat, and Technicians Mobile App.

Continuous Investment

Proudly growing our Canadian team by over 40% since 2022, and employing more Canadians than any other central monitoring company.

Culture of Caring

At Armstrongs, a Becklar Company, we care deeply about the work we do and the individuals we protect. We are committed with showing our partners and customers that we genuinely care by providing unrivaled service and support with each and every interaction.

Elevate Your Security Solutions

Now You
Can Stop
Crime Before
It Happens

Video Remote Guarding

Turn every camera of your security system into a live remote guard. Becklar Video Remote Guarding solutions are camera agnostic and can cover an entire property or facility simultaneously, even in remote locations. Our cutting-edge video surveillance solutions combine ambiently aware AI technology and interactive remote guards with multilingual capabilities to proactively prevent crime before it happens.

Video Verification

Implement the most advanced video verification monitoring technology available today to validate the accuracy of alarm signals and deter criminal activity at residential or commercial properties. Video feeds are integrated with Becklar's award-winning monitoring centers to ensure fast, accurate alarm verification and dispatch when needed.

Add value to your security offering and
boost your RMR by 4 times!
