

# PERS Reimagined- Becklar Personal Health and Safety 2.0

Smart protection, built with care.

A complete, AI-powered safety solution that's easy to deploy and engineered to maximize value for you and your customers

## Increase Customer Retention

Stronger Engagement. Smarter Insights. Longer Subscriptions.

- **Easy activation and proactive engagement tools** encourage consistent use across the entire care circle
- **Actionable, data-driven insights** help maximize retention and boost recurring monthly revenue (RMR)
- **Immediate value and peace of mind** for Caregivers, increasing loyalty and long-term customer stickiness

## Belle X2 – Unmatched Tech at an Unbeatable Price

Next-gen performance meets practical value, delivering greater engagement and lower total cost of ownership, without compromise.

- **Seamless eSIM swap** enables carrier flexibility, helping provide optimal coverage and avoid customer returns
- **Revolutionary industry-leading battery life** promotes consistent wear with up to 45+ days between charges, up to 5x longer than competitors
- **Engineered for durability and simplicity** Belle X2 blends resilient materials with advanced technology to deliver reliable, everyday protection with clear two-way voice
- **Innovative call technology** to increase call reliability

## Launch-Ready Platform to Accelerate ROI

Ready to Perform from Day One. Accelerate results and ROI.

- **Preconfigured integrations** save thousands of hours in developer time by eliminating setup processes with carriers. Utilize our pre-built APIs to connect to your CRM systems and streamline operations
- **Unified with industry leading monitoring** delivering the fastest response times (under 10 seconds on average) in the market and prioritizing urgent calls through our AI-powered platform
- **Effortless implementation**, fully supported by expert North American-based product and development teams

belle®  
X2

#### Microphones

Dual microphones with noise cancellation allow users to easily speak with an expert specialist

#### Speaker

Powerful, high quality speaker for clear communication

#### Call Button

Just one press to get connected with a specialist

#### Status Light

Lets users know when a call is in progress and when the device needs to be charged
